Student Programme Overview

ANGLO student programmes last 13 or 14-nights for the majority of student groups.

The Academic programme spans 9 of these days for 14-night programmes, 8 for 13-night programmes.

The students are split into half: group A and group B - one group does lessons in the morning, the other in the afternoon, alternating each day.

Most ANGLO Teachers work for two back-to-back student programmes.

Here is the outline of a typical student programme from the perspective of an ANGLO Teacher:

> Note that non-residential teachers aren't entitled to canteen meals on campus
